ASU Wireless instructions for Android

How to connect to the ASU wireless network with your Android device.

To connect to wifi here at ASU, follow these steps:

1. From the Home screen, Press Menu > Settings > Wireless controls
2. Make sure you have Wi-Fi enabled indicated by the green check mark. Then select Wi-Fi Settings.
3. Select asu from the available Wi-Fi networks.
4. Enter in all the settings below.
4. Step 4 continued. Enter asu for the Username and Password. Then click Connect.
5. After connecting to asu, open up the default Android Browser by going to the home page and Pressing Menu > All Programs > Browser
6. The browser should automatically direct you to https://netreg2.appstate.edu/. If not just press Menu and type netreg2.appstate.edu into the address bar.
7. Enter your ASU username and password, then click Login.
8. Follow the NetReg instructions. After you have finished registering, wait about 15 minutes and restart your phone. After you turn it back on and connect to asu, you should now be on our network.
